State Operations Center	Inland Region EOC	Coastal Region EOC	Southern Region EOC
Normal Operations	Normal Operations	Normal Operations	Normal Operations

Cal OES COASTAL REGION

- Nothing significant to report.

Cal OES INLAND REGION

- Nothing significant to report.

Cal OES SOUTHERN REGION

Virulent Newcastle Disease in Chickens, Downtown Los Angeles, Los Angeles County

On 05/18/18 at 1105 hours, the California State Warning Center (CSWC) received report from the California Department of Food and Agriculture (CDFA) that CDFA detected virulent Newcastle disease in 10 chickens in Downtown Los Angeles, Los Angeles County.

- The detection has been confirmed by the United States Department of Agriculture's (USDA) Animal and Plant Health Inspection Service (APHIS).
- This is the first case of virulent Newcastle disease, previously referred to as exotic Newcastle disease, in the U.S. since 2003.
- There is no commercial poultry production and no farms in the immediate vicinity.
- Virulent Newcastle disease is not a food safety concern.
- No human cases of Newcastle disease have ever occurred from eating poultry products.
- Infection is easily prevented by using standard personal protective equipment.
- CDFA is working with federal and local partners as well as poultry owners to respond to the finding.
- State officials have quarantined potentially exposed birds and are testing for the disease.
- Cal OES is monitoring and remains on standby to assist as warranted.

FIRE ACTIVITY

Cal OES Fire Preparedness Levels

National	Northern California	Southern California
Preparedness Level 2	Preparedness Level 1	Preparedness Level 2
	Multi-Agency Coordination System MACS Mode: 1	Multi-Agency Coordination System MACS Mode: 1

Please note: The National and Regional Preparedness Levels are maintained by the National Multi-Agency Coordination (MAC) Group and are separate from Cal OES activation levels.

- Nothing significant to report.

MAJOR ROAD / HIGHWAY / BRIDGE CLOSURES

Major Road Closures		
Northern California	Central California	Southern California
No Lifeline Route Closures	No Lifeline Route Closures	No Lifeline Route Closures

Lifeline Routes

- There are no lifeline route closures.

Non-Lifeline Routes:

Sacramento County:

- Southbound I-5 Connector to Eastbound I-80 is closed due to a collision. There is a detour in place. Estimated time of reopening is unknown.

Wildfire Closures:

- There are no wildfire closures.

Emergency Center Activations:

- There are no Emergency Center Activations.

WEATHER SYNOPSIS BY REGION

NORTHERN CALIFORNIA

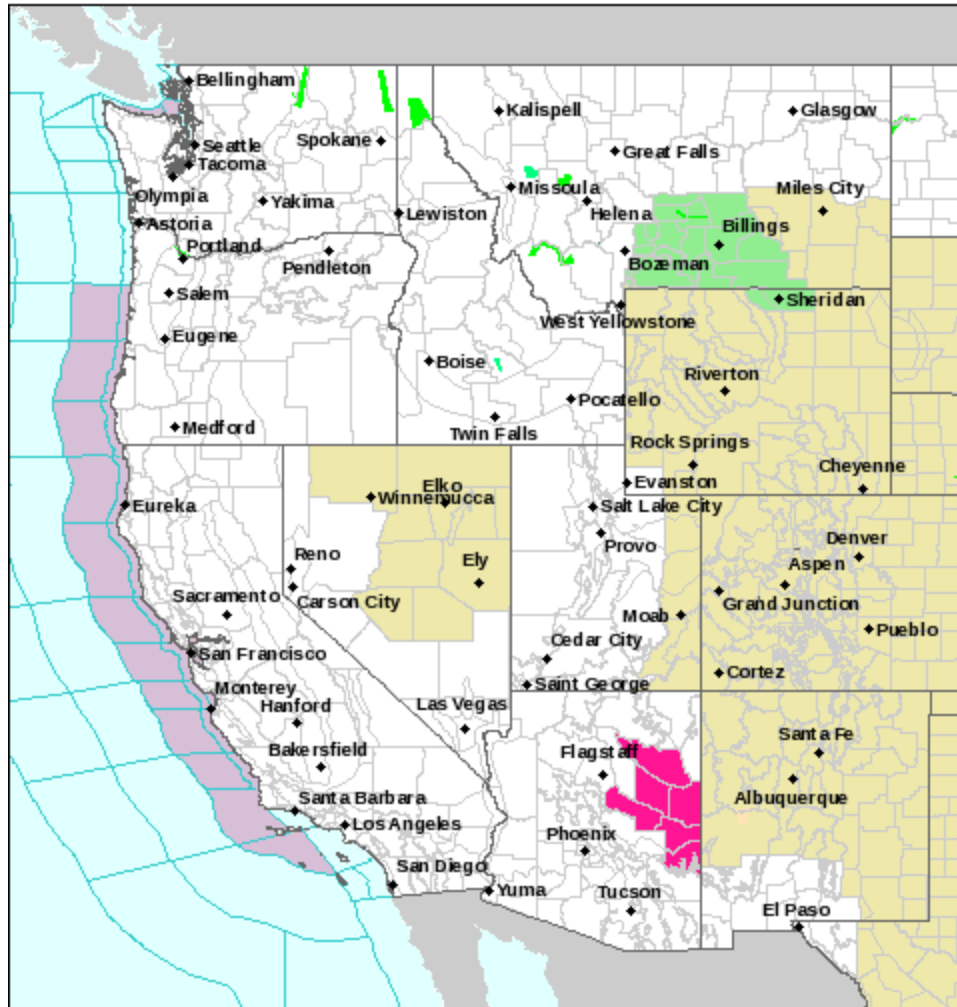

A cut off low that impacted the area during the weekend will slowly progress eastward and weaken through midweek. Another cut off low will approach from the Pacific later in the week and affect the area through at least the weekend. These cut off lows will keep the daily afternoon isolated to scattered showers and thunderstorms favoring the mountains going. Some storms will contain footprints of wetting rain. Humidity readings will generally be at moderate levels with the lowest readings found in the Sacramento Valley. Some teens will be found within the Valley today but trend higher the rest of the week. A general northerly flow today will give way to a southerly type of flow Tuesday and Wednesday. The overall wind flow during the next 7 days will be on the lighter side...outside of gustier outflow's from thunderstorms. However, gusts up to 25 mph will be possible across portions of the Sacramento Valley and Diablo-Santa Cruz mountains Wednesday and Thursday due to the approach of the second low. Temperatures will generally be near to a little above normal through Thursday before trending near to a little below normal Friday into the weekend.

SOUTHERN CALIFORNIA

A low pressure area over the region will bring scattered showers and thunderstorms to the Sierra through this evening. Isolated showers and thunderstorms will also form over the mountains and deserts of Southern California north of Riverside County this afternoon and evening. Temperatures will be well below normal today, with mid 50s to mid 60s across the mountains and upper 60s and 70s in the valleys. The low will move into Nevada on Tuesday ending the shower and thunderstorm threat across Southern California, but scattered afternoon showers and thunderstorms will form over the Sierra once again. Temperatures will warm a few degrees Tuesday, but they will still be well below normal. The marine layer will be deep through Tuesday and there will be areas of light rain in the mornings from the lower coastal mountain slopes westward across Southern California. There will be little or no afternoon clearing west of the mountains from the marine layer through Tuesday. A weak ridge of high pressure will build into California from the south causing temperatures to warm further Wednesday and Thursday. However, temperatures will only warm to near or a little below normal on Thursday. Isolated afternoon showers and thunderstorms will form only over the Sierra Crest Wednesday and Thursday. The marine layer will remain deep, but there will be good afternoon clearing across the coast and valleys of Southern California Wednesday and Thursday. Westerly afternoon and evening winds of 15 to 25 mph with gusts to 40 mph will surface across the wind prone mountain and desert areas through Thursday. Another low will approach the California Coast Friday and move inland Saturday which will cause cooling once again. There will most likely be an increase in shower and thunderstorm activity across the Sierra Friday and Saturday and it is possible that isolated showers and thunderstorms could form west of the Sierra across Central California. Westerly afternoon and evening winds will increase to 20 to 30 mph with gusts to 50 mph across the wind prone mountain and desert areas Friday and Saturday. Less in the way of afternoon clearing from the deep marine layer will be likely across the coastal and valley locations of Southern California Friday and Saturday. This second low will move into the Great Basin bringing warmer and drier conditions to the area Sunday.

Cal OES LAW ENFORCEMENT MISSIONS

Ongoing Cal OES Law Missions

- **2018-LAW-46811, 05/19/18, 1217 hours:** Mendocino County Sheriff's Office advised that on Friday, 05/18/18 at 1300 hours, a 76 year old female at risk with early stage Alzheimer's walked away from her residence in the town of Piercy. Mendocino Sheriff requested twenty (20) Type I and Type II searchers, two (2) trailing K-9's and two (2) area K-9's for 0900 hours start time on Sunday, 05/20/18, at the Piercy Community Center off of Hwy. 271 in Piercy. **Update:** Mendocino County Sheriff requested the following resources for Monday, 05/21/18 - 50 Type I and II searchers; four wheel drive trucks or vans with a driver to transport search teams; CNG support for 50 Nano shout devices with technician support; five area search dogs. Cal OES LEB is coordinating the request. **Mission Ongoing.**

Closed Cal OES Law Missions

- **2018-LAW-46839, 05/20/18, 1059 hours:** Air Force Rescue Coordination Center (AFRCC) notified the California State Warning Center (CSWC) of a Personal Locator Beacon (PLB) activation, no message received, Placer County/Truckee area. Placer County Sheriff's Office notified by LDO. Contact made by AFRCC with Registered Owner (R/O) who indicated he was testing device. **Mission Closed.**
- **2018-LAW- 46830, 05/20/18, 0914 hours:** AFRCC notified CSWC of an Emergency Locator Transmitter (ELT) sounding in 80 mile radius, Sacramento County, multiple reports. AFRCC Incident #18M0312. AFRCC activated Civil Air Patrol (CAP) to locate and silence ELT. **Update: 05/21/18, 0535 hours:** AFRCC notified CSWC that CAP had located and silenced ELT. **Mission Closed.**

Emergency Management Assistance Compact

- **2018-Cal OES-46751:** The State of Hawaii requested one (1) Geothermal Subject Matter Expert (SME) from the California Department of Conservation, Division of Oil Gas & Geothermal Resources, to provide support to the volcanic activity occurring in Hawaii. The SME has industry and regulatory experience, as well as knowledge of geothermal wellhead construction, operations, processes, risk management, and mitigation. Deployment dates: 5/13/18 - 5/19/18. The State of Hawaii requested an extension of this resource. The new return date is 5/24/18.

Cal OES MISSION TASKING

Cal OES Missions

- **2018-IREOC-45244:** Caltrans to remove dead and dying trees along highways in Kern, Tulare, Fresno, Madera, Mariposa, Tuolumne, Calaveras, Butte, Plumas, Sierra, Shasta, and Lassen counties. (On Scene – Long-term assignment)
- **2017-SOC-44098:** CalRecycle Debris Management Team in Ventura County (Coordinating)
- **2017-SOC-43821:** DTSC to remove household hazardous waste from over 500 residential lots in Ventura County (On Scene)
- **2017-Inland-42559:** Weather station installed to gather real time rainfall data by Air Resources Control Board (On Scene)
